

Earthpaint 100% Natural Wood Floors

Machine Buffed Rainforest, Bio Poly NT

- Twice as fast as mopping
- Uses half the product as regular polyurethane
- Spot maintainable
- Unbeatable natural satin beauty
- Great feel on bare feet
- Can be coated later with Mountain if more protection is desired.
- Incredible grain illumination, naturally
- Can be buffed with beeswax later if desired.
- Ideal for low traffic areas such as bedrooms or rustic floors.
- Not nearly as water resistant as Mountain.

Mopped Mountain

- Beautiful, honey gloss SUPER protective film
- Easy to apply. No Polyurethane.
- Ideal for High Traffic Floors, Gyms, Restaurants. Withstands great abuse.
- Water Proof. Cashew Resin is highly Hydrophobic. Water doesn't penetrate it.
- Chemical and scuff resistant film
- Very durable
- Not spot maintainable but can be recoated.
- Will eventually need to be stripped like any poly would.
